GOOD FRIDAY

Steals Car From Brown Farm Home

When Fred Brown, Willow street near Marley in New Lenox township, went to his garage on his farm Tuesday morning to get his Hudson sedan, he found the garage empty.

The theft was reported to the police. Later in the day when the milk truck arrived to pick up the milk, the driver stated he saw a Hudson sedan at the nearby school on the southwest highway. Stanley Brown accompanied the milk truck driver to the school and found the parked car to be the Brown's Hudson.

It appeared that the Hudson had been used to help pull another car off of the soft shoulder where it was stuck, as doors had been removed from the school clock shed and were laying close by. It is plain that it was not the work of a stranger, as the one who took the car seemed to be familiar with the affairs at the Brown farm home.

The car is damaged, but to what extent is not yet known.

Former Mokena Man Married in Chicago

A former Mokena man was married in the Graham Taylor chapel, 5757 University avenue, Chicago, at a beautiful wedding ceremony, March 18, when Miss Mary Ruth Osburn, of Roseland, daughter of Mr. and Mrs. R. W. Palmer of Waukegan, Wis., was united in marriage to Russell Maxwell Williams, son of Mrs. Hattie M. Wieber of Frankfort. James Lee sang the "Lord's Prayer" and "Because." A. Graudell played his accompaniment on the organ.

The double ring service was read by Brother Box, of the Cornell avenue Church of Christ. A candle-light service, amid white roses, gladioli and chrysanthemums, the bride was given in marriage by her father. She wore a white satin gown with a long veil and her bridal bouquet was of white roses and white orchids. Her jewelry, a strand of pearls, was a gift from the bridegroom.

Miss Ethel Mae Wieber, sister of the bridegroom, was bridesmaid. She was dressed in a blue silk taffeta and net gown and carried a colonial bouquet of yellow roses and yellow satin ribbons.

The bridegroom was attended by Harold Lucht, of Riverdale, as best man. Maudel Lasses and Robert Bennett served as ushers.

For her daughter's wedding, the bride's mother was gowned in powder blue and the bridegroom's mother wore navy blue. Both had orchid corsages.

After the ceremony a reception was given at 8:30 in the home of relatives of the bride, Mr. and Mrs. Ben Fauth, of 11316 Prairie avenue. Among the out of town guests were the bride's brother John and wife, Mr. and Mrs. Glenn Osburn of Milwaukee, Wis., and the bridegroom's brothers and wives, Mr. and Mrs. Harold Williams, Chicago and Mr. and Mrs. Stanley Williams of Mokena. Martin F. Buchholz of Big Rapids, Mich., Mr. and Mrs. Albert Cappel of Mokena, and Mr. and Mrs. W. D. Williams, of Hoopston, also attended.

The young couple will reside at 15223 Lexington ave., Harvey.

Fire on Beutel Farm Destroys Barn & Hay

Mokena and Frankfort fire departments responded to a call Sunday morning about 1:15 o'clock when a fire was reported from the George Beutel farm in the southeast part of Frankfort township. The fire, which destroyed a barn and the contents, was of unknown origin. According to Mr. Beutel, the cause is a complete mystery as no one was in the building for several days before the fire.

The damage was estimated at \$9,500 as the barn was valued at \$8,000 and the 50 tons of hay stored in it, valued at \$1,500 were a total loss. An automobile and a jeep kept in the barn were also destroyed.

The fire departments fought the fire for about two hours but were unable to confine it to one building.

CARD PARTY

The Lions club of Frankfort will give a card party in the Frankfort school gymnasium, on April 22.

The Legend of the Dogwood

At the time of the Crucifixion, the dogwood tree was as large and strong as the oak, and was chosen as the timber for the Cross.

To be used for this purpose distressed the tree, and Jesus, in His pity, promised "Never again shall you grow large enough to be used for a cross. Henceforth the dogwood-tree shall be slender and twisted; its blossoms in the form of a cross . . . two long and two short petals. At the edge of each petal there shall be nail prints; in the center of the flower, a Crown of Thorns. And this tree shall be cherished as a reminder of MY Cross."

So it has been, and the springtime flowering of the dogwood has remained a symbol of Divine Sacrifice and the triumph of Eternal Life.

Girl Scouts and Brownie leaders and Scout Neighborhood chairmen were invited to attend a Scout workshop at the Dan Ryan Forest preserve, 87th and Western avenue, Chicago, last Thursday and Friday.

It was sponsored by the Forest Preserve district of Cook county. There were four classes conducted during the day in the shelter house, namely: clay modeling, leaf printing, with spatter painting, jewelry craft, plaster parls casting. This was in preparation for Scout day camping.

From Mokena were the Mesdames George Bills, John Marti, Hugo Neithammer, Arthur Shoop, George Reid, George Polzin, Thomas Powers and Russell Anderson.

All enjoyed the two days greatly and appreciated the opportunity of the added knowledge.

Bruce Shoop and Russell Geuther will attend the National Jamboree of Boy Scouts and Explorer Scouts at Valley Forge this summer.

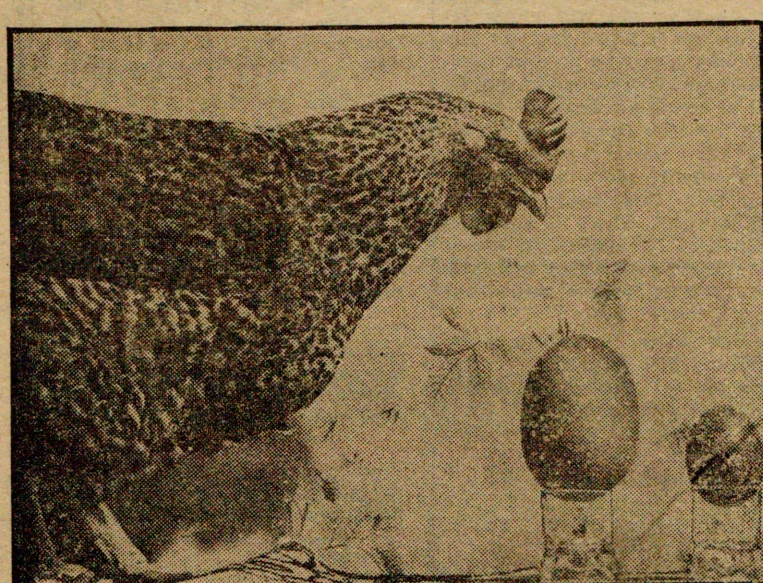

The Mokena Civic association, which sponsors the Boy Scouts, Explorer Scouts and Girl Scouts, will pay the registration fees for these two boys. THE EGG AND I—Emilie, a Plymouth Rock hen that believes in doing things in a big way, proudly contemplates her crowning achievement—a double-yolk "super" egg which tips the scales at an even half-pound. Shown beside the one-egg omelet is one she produced when not trying so hard. Her owner, John Mashkow of Elmont, N. Y., is considering presenting her an award for egg-cellence.

New Lenox Mayor To Head New Bank In Chicago

Frank C. Cole, assistant cashier, American National Bank and Trust Company of Chicago, was selected by the organization committee Monday for the presidency of the proposed new Park National Bank of Chicago.

Cole began his banking career with a Miami bank in 1921 and was later a member of the examining force of the Florida State Banking Department. He has been associated with American National Bank and Trust Company since 1930. He is now serving his second term as mayor of the village of New Lenox, Illinois.

The Park National Bank organization committee, headed by Edward L. Bass, has established headquarters in the building the proposed new bank will occupy at the corner of Milwaukee Avenue and Central Park Avenue.

The bank will have capitalization of \$520,000, comprising \$400,000 of capital stock, \$80,000 of surplus and \$40,000 paid-in undivided profits.

Hogers Celebrate 40th Anniversary

Sunday marked the fortieth wedding anniversary of Mr. and Mrs. Albert Hoger, of Sedan Prairie. To observe the day they entertained forty-five guests at a six o'clock dinner in their home.

The dinner table, covered with a white linen cloth, was centered with a bouquet of red roses. The large four-layer wedding cake was beautifully decorated.

Mrs. Hoger was born on the farm where they are living and still farming. It had been the home of her parents, the late Mr. and Mrs. William Kampe.

Among the guests were their children, Mr. and Mrs. Harry Yunker of Mokena, the Rev. and Mrs. William Bartling of Melrose Park, and Mr. and Mrs. Norman Hoger of Mount Greenwood. A son, H. G. Hoger of Fairmont, Minn was unable to attend.

They received many lovely gifts and cards, among the gifts was a beautiful blanket. Their children remembered them with a purse of money. Mr. and Mrs. Hoger appeared on the WLS dinner bell program Monday noon.

LARRY MUNCH, 2 DROWNED NEAR PALOS HOME

When little Larry Munch, aged 2 years, failed to respond to his mother's call for dinner Tuesday noon, it was because he could not be found.

Larry was the son of Mr. and Mrs. Lincoln Munch of 131st street and 96th avenue in Palos Park. He had been playing in the back yard of the home during the morning with the family dog. His father is supervisor of Palos township.

A search began at noon with 40 state police, sheriff's police, forest rangers and neighbors. The barking of the dog led them to a rain-flooded field at 131st street and Mannheim road, two blocks from his farm home. The little fellow's body was found in 30 inches of water in the field.

The Orland Park fire department's inhalator squad attempted to revive the child. He was pronounced dead by a physician.

The Munches have two other children, Richard and Dorothy. Funeral services were held this afternoon in the Schmaedeke funeral home in Orland Park, with the Rev. Mr. Walter M. Nugent, pastor of the Palos Park Presbyterian church officiating. Burial was made in Oak Hills cemetery.

Frankfort and New Lenox Boys Awarded 'Hippy' and 'Hoppy'

David Zechlin of Frankfort was a most surprised and thoroughly happy little boy last Saturday when he became the possessor of a lovely pet rabbit.

He and his mother were in the Al Baskin clothing store in Joliet where all children were signing a register of attendance. There was no money involved. In a short time his name was picked and he was awarded one of the lovely black and white rabbits, named Hoppy, together with a large hutch and feeding dishes.

Another happy little boy was Donald Snow of New Lenox who was awarded the second rabbit, named Hippy.

David, the son of Mr. and Mrs. Alfred Zechlin of Frankfort, will celebrate his 10th birthday Easter Sunday.

O'NEILL TEAS WELL ATTENDED

Two teas given for Mrs. Lottie Holman O'Neill Tuesday were most successful.

In Frankfort in the afternoon, when 75 guests were present, Mrs. O'Neill told how she had been in the service for the people for the past 35 years and during that time had built up a record endorsed by many state associations, the Illinois Ag. Illinois Educational Asso., Voters League and others. She felt she owed it to the district to bring that experience to the Senate, which seat is now vacant. She is not backed by any organization or political machine, but solely by the people of the two counties.

In charge of the Frankfort tea were Mrs. Herbert Folkers, and Mrs. Stanley Johnson, assisted by a committee consisting of Mesdames Albert Krusemark, Jr., Leo Peterson, Burton Breidert, William Wishover, Norman Bradley, Geo. Helsen and Walter Carter.

There was not quite such a large crowd attending the Mokena tea in the evening, as the night driving on the country roads which are poor in many places, kept many home. Mrs. Frederick Whitlark was assisted by a committee of Mesdames Margaret Cappel, Ethel Cooper, Vivian Shoop, Florence Neithammer, Myrtle Cooper and Eleanor Spiess.

In her address that evening Mrs. O'Neill repeated much of her Frankfort speech and added that she was the sponsor of the Gateway Amendment to help make possible the amending of our constitution. Coffee, tea and cakes were served at each gathering with committee members presiding at the silver service.

Mrs. Semmler Heads Mokena Cancer Drive

The campaign for the 1950 Cancer crusade opened Saturday with Mrs. Margaret Semmler chairman for Mokena. Coin boxes have been placed in Mokena business places and as no door-to-door soliciting has been planned, the chairman, as well as the American Cancer society and the cancer sufferers, will appreciate any contributions made through the use of the coin cans. It is hoped that every adult in the village will assist this lifesaving work by making as large a donation as possible this year. The campaign will continue thru the month of April.

The bride's mother was dressed in tan gabardine and the groom's mother wore a rust print dress. Both wore corsages of pink carnations.

A reception was held immediately following the ceremony. A buffet luncheon was served from a lovely table decorated with the bride's chosen colors, pink and blue, and centered with a three-tiered wedding cake topped with a miniature bride and groom. Mrs. Jack Gardner served the cake while Mrs. Charles Cane presided at the coffee urn.

After a wedding trip to an undisclosed destination, the couple will live near Lincoln Estates.

The bride is employed in the office of Dr. Dillon in Homewood, and the groom is employed by the Bell Telephone company in Chicago.

A HITCH IN THE BELT—How to convey a conveyor belt posed a problem for the shipping department of the Goodyear Tire and Rubber Co. in Akron, O. The huge 1200-foot, 13-ton belt, destined for Pennsylvania, required a special low-slung truck to assure tunnel and bridge clearance. It was also necessary to secure special permits to transport the two-roll unit over Ohio and Pennsylvania highways.

DUST STORM AFTERMATH—Albert Brabander digs out a culvert on his father's farm near Shawnee, Kan., after recent dust storms swept over the land. When the winds abated, loose soil like this was deposited like minor snowdrifts over many Midwestern farms, causing damage to crops which is still not fully estimated. Weather Bureau and Department of Agriculture officials admit that nature may be setting the stage for storms which could match the disastrous "Dust Bowl" days of the Thirties.

TEST NEW JET HELICOPTER—An experimental helicopter named the "Top Sergeant" takes to the air, left, at Manhattan Beach, Calif., powered by pulsejet engines mounted at the rotor tips. The pulsejet engines are unique in that they weigh a scant 25 pounds each, and contain only one moving part. At right, mechanic Charles Duschak squirts a spray of gasoline into the pulsejet mounted on the tip of a rotor blade, in preparation for a flight. Designing engineers say the new-type "flying windmill" will lift twice the payload of the conventional helicopter by eliminating the weight of a heavy piston engine, and should be produced at one-fourth normal cost.

Louis Nelson

The candidacy of Louis E. Nelson of Maywood for the Republican nomination for state treasurer will be submitted to voters in the primary of Tuesday, April 11 backed by endorsements that may create a new record in the history of Illinois politics.

In addition to statewide support of his candidacy by civic, business, professional, agricultural, labor and women's organizations, 71 of the 80 Cook county ward and township committeemen have marked their sample ballots for Nelson, and 82 of the 101 down-state county chairmen have endorsed him.

For 18 years Nelson was a member of the Proviso township school board of education, and active in PTA work. He is a member of the grand lodge, Independent Order of Svithlod, Medinah Temple Shrine, and the First Methodist church of Maywood. He is past president of the Maywood Chamber of Commerce and Lions club, and has been leader in many civic affairs.

Nelson's life story is typically American. His parents, Louis G. and Johanna Erickson Nelson, were Swedish immigrants with boundless faith in America and great energy but very few dollars. His father worked in lumber camps and his mother did housework when they first came to this country.

They had settled in Superior, Wis., by the time Louis E. Nelson was born, Sept. 5, 1899, the second of four sons. In the modest financial circumstances of the family young Louis had to carry his share of the load from earliest childhood. He has known hard work all his life. It has become habit with him.

All during his school years he sold newspapers, delivered milk, or worked on a farm, and finally he washed dishes to get through college.

An ad on USEFULNESS

Friend of ours was telling us about one of the most useful devices in the world.

"It works 24 hours a day for me," he said. "And never yet has let me down when I needed it most."

"Fact is, I use it to run all kinds of errands, carry messages to and from a steadily growing number of people, get help in emergencies, make friends and lots of other things. It saves me time, worry and money."

"Costs only a few nickels a day, too," he added.

"Must be a newfangled robot," we scoffed.

"No," he said. "You have one yourself—your telephone."

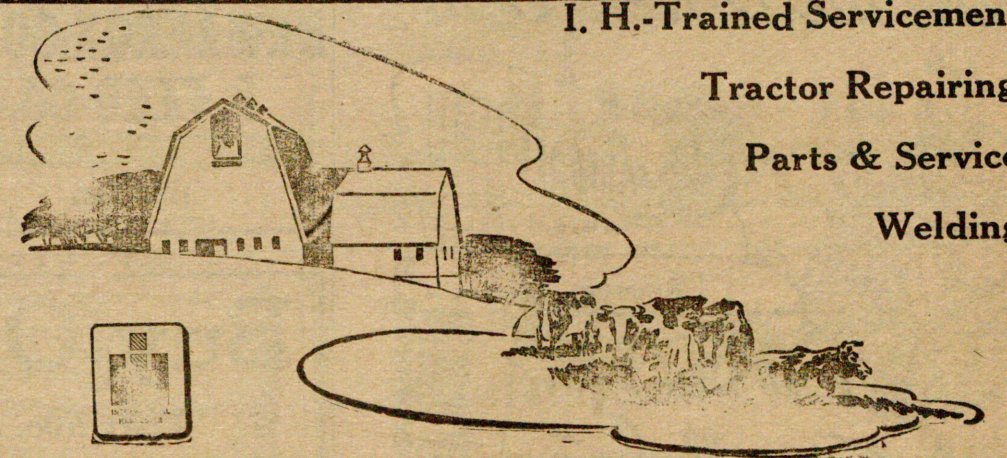

When you stop to think about it, few things are more useful than your telephone. Few things do so much for so little.

A sure sign of high school graduation is the arrival of the senior class photographs. The seniors of the Orland Park community high school received theirs last week, and the traditional trading of pictures was the major activity for a day or two.

Mrs. Clara Kelly, who has been a patient at Little Company of Mary hospital for the past two weeks, returned home Sunday and is convalescing nicely.

On account of the muddy roads making car transportation impossible, the meeting of the Orland H. Cloverettes has been postponed from April 3 to April 13 when they will meet in the home of Mrs. Harry Anderson.

IT'S NEW! IT'S EASY-TO-HANDLE! IT WORKS ANYWHERE THE TRACTOR WILL GO!

...IT'S THE NEW JOHN DEERE-VAN BRUNT NO. 8 FIELD CULTIVATOR

Here's the answer to many of your tillage problems! It's the new John Deere-Van Brunt No. 8 Integral Field Cultivator—the easy-handling outfit that cultivates anywhere you can drive your tractor.

With the No. 8, it's easy to cultivate fence rows or tight corners. It dodges field obstructions easily, turns on a dime—thanks to its close-balanced mounting near the rear tractor wheels. Easy to attach and detach, the No. 8 does exceptional work. Smooth, positive hydraulic power raises and lowers the cultivator... the automatic depth regulator maintains uniform cultivating depth over ridges, in depressions, and on the level.

Such features as sturdy, welded frame, jack-knife spring pressure on the heavy-duty cultivator bars, and husky teeth make the No. 8 a field cultivator you'll be glad to own. See us soon for full details.

SELF CONTROL—The facial expression of "Tiger," owned by Wendell Hansen of Atlanta, Ga., is that of a cat who didn't eat a canary. Tiger exercises almost perfect will power as Hansen's three pet canaries stroll by under his nose. He wouldn't touch one of them for the world, but can't quite resist licking his chops.

Stairway to (Pig) Heaven

Even the final minutes of a hog's life are being made more comfortable by the Chicago Union Stock Yard & Transit Company, for a recent development in providing low, wide steps instead of a ramp has proved highly successful not only in speedier handling but also in preventing costly bruises. The swine ascend the stair-step ramp at least twice as fast as on the old-fashioned ramp and injuries have become a rarity. It's one of the numerous recent developments at the Chicago yards to prevent bruises and other damage to the animals, both to the advantage of the producer who is assured of every care in handling his swine all the way to the buyer, and to the advantage of the ultimate consumer.

A double celebration was given in honor of the 13th wedding anniversary of Mr. and Mrs. Hultsch and the birthday of Mr. Walter Hultsch. Many relatives and friends attended.

Need Well-Balanced Nutrient Supply to Maintain High Yields

MAINTAINING high crop yields year after year depends on getting and keeping a well-balanced supply of nutrients in a soil well conditioned with organic matter, declared the Middle West Soil Improvement Committee in a recent statement.

"No one element is the sole answer to high production over extended periods," says the statement. "It is true that some soil for a time gives startling responses to one element. But the reason for this is that such soil is deficient in that one element, while well stocked with others."

"Take, for instance, a soil lacking in potash. As soon as potash is added, the crop response is tremendous. But continued additions of potash alone will soon pull down

Dear Voter:

Four years ago you elected me as your County Judge. It was my first public office and I appreciated your trust.

During my term as County Judge all cases were heard promptly and in each case I sincerely tried to be fair and just.

With the assistance of Paul Ohman, my Probation Officer, we have worked diligently with dependent and wayward children so that they might become good citizens.

For the purpose of protecting our lives and property, I have strongly enforced the drunken and reckless driving laws.

If my record and policy meet with your approval, I solicit your support.

Sincerely yours,

Truth About Easter

Lesson for April 9, 1950

"UP THIS WAY," writes a friend in a great city, "the hats and the bunny-rabbits have run away with Easter." The fact is, the world has stolen Easter and made something silly out of it. The world will not believe the truth about Easter, yet the world wants a holiday.

The Man from Mars, visiting our planet at Easter time, would have a hard time guessing what the festival means. Rabbits? New clothes? A day off? The return of spring? Not at all, nothing of the sort. Bunnies and hats are gay; but the right word for Easter is not Gaiety, it is Glory.

Dr. Foreman

God's Victory

EVEN IN churches you will not always hear the whole truth about Easter. You may hear that it is the festival of Returning Hope, or that it symbolizes new life, or that it stands for the triumph of faith over despair, or that it expresses our belief in immortality. In a way, all these ideas about Easter are true, but if that is all, then we have not yet got down to the truth about Easter.

The fact is—the fact which gives a solid ground for all these other facts—the first Easter was the day when God raised Jesus Christ from the dead. It was the day of God's victory over death, when the gates of death swung backward and the bars of death were broken.

The truth about Easter is that something happened on that day that never happened before and never will happen again. Because never before had the Son of God risen in personal triumph from the grave, and never will that have to be done over again.

If it were not for that fact, Jesus might have been remembered as a long-dead Jewish teacher, a hopeful but mistaken and defeated teacher, a name to be found only in encyclopaedias. But the truth about Easter is that Jesus is not dead, his hopes were not mistaken, he was not defeated, his Name is above every man! He is the Christian's living Lord.

His Power in Us
THAT STRANGELY TWISTED man Kierkegaard called Christianity "God's attack on man." You could not get that idea from the New Testament.

Marvelous as it is, Christianity is God offering to man the power to rise out of our dead selves, to do for us what we could never have done for ourselves. What has this to do with Easter? Just this: That when the Apostle Paul wants to explain what the power is which God sets at our disposal, what it is like and what it will do, he tells us it is the same power with which God raised Christ from the dead. (See 1 Cor. 6:14; Eph. 1:19,20; 2:6; Phil. 3:10.)

You see the truth about Easter is that it is the day when the Christians celebrate the most tremendous act God ever performed on this planet, or rather that day when God brought to a climax the whole mighty action of the coming and the life and death of Christ. And that is the power which is available for the Christian.

A Christian Is Supernatural

IF ALL YOU WANT of God is to have him do something for you, then you are rather like a baby who keeps crying for some one to bring him more toys . . . but he stays a baby. If your want of God is to have him do something with you, in you and through you, then you are like a child who really wants to grow up.

The Christian is a supernatural being. As C. S. Lewis puts it, we are not God's little toy soldiers, we are intended to be his sons and daughters.

But if the Christ is the "first-born among many brethren" then here in this life those who accept him have access to the same power that wrought in him. And at the end of life we shall not be afraid, knowing that we belong to the same God who raised our Lord from the dead.

The glory of Easter is not something merely to be remembered or sung about; it is something to be experienced. The same God who conquered death "giveth us victory through our Lord Jesus Christ."

Lehnert Herd Leads DHIA Association No. 2 in February

Chris Madson, tester in DHIA Association No. 2, reports that the Donald Lehnert Holstein herd led his association last month with a herd average of 1272 pounds of milk and 49.4 pounds of fat. Lehnert lives just east of Midway City.

The remaining four high herds in the association and the pounds of milk and fat produced respectively by each were: Edwin Moore, Manhattan, Ill., 1174-42.1; Harry Von Alven & Sons, Grant Park, 1050-40.9; Walter Stoeven & Son, Beecher, 1149-40.2; E. W. Heatherwick, Orland Park, 1024-37.9.

Harry Von Alven & Sons had the two highest producing cows last month in this association. One produced 1950 pounds of milk and 83.8 pounds of fat, while the second place cow produced 2320 pounds of milk and 83.5 pounds of fat.

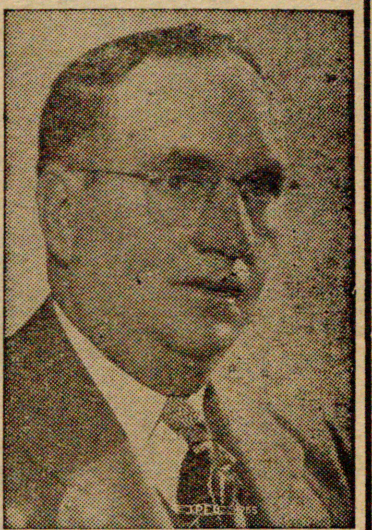

A cow belonging to Edwin Moore was third, with 2220 pounds of milk, and 79.9 pounds of fat, and Walter Stoeven & Son had the fourth and fifth highest producing cows. One cow produced 2020 lbs.

of milk and 76.7 pounds of fat, and the fifth place cow, 1970 pounds of milk and 74.8 pounds of fat.

Cooperators in Dairy Herd Improvement association work, not only find out individual and herd production records, but because of accurate feed costs kept each month, they are able to find out exactly which cows are making them the most money, and how much.

Anyone interested in enrolling their herd in this worthwhile project should contact Mr. Modson, Elino Saarela, who tests in Association No. 1, or the Farm Bureau office.

ILL. FARMERS' OUTLOOK LETTER

By Extension Service in Agriculture and Home Economics, University of Illinois College of Agriculture, Urbana

Farmer spending influences business in industrial areas. Nonfarmer spending is even more important in determining farm prices and income. That is why successful farmers keep a sharp eye on business conditions as they plan their farm operations. So let's take a quick look at some of the more important things in the present business situation.

Squeeze on Inefficiency. World War II ended more than four and one-half years ago. Many of the

war-accumulated demands for manufactured products have been filled. Inefficient workers are finding it harder to get jobs. Inefficient business firms are going broke.

Agricultural production has returned to normal after the crop failures of 1947. Prices of farm products have been reduced accordingly. Inefficient farmers are being pinched.

Good farming pays well. Prices have settled at much higher levels than most farmers expected. This applies to prices of farm products as well as to quotations on things farmers buy. So far in 1950, gross farm income is only about 5 percent under the level of the first three months of 1949. Net farm incomes are off sharply from the peak of two years ago, but good farming is paying well. That is evident from the strength in the farm real estate market.

Industrial activity and business generally is recovering from the 1949 slump. Housing construction is booming along at record-breaking speed. Coal mines and steel mills

are operating full blast. Automobile production and sales are at or near record levels. This is in spite of a strike at one of the big producers. People are buying about as much in department stores as they did last year. Businessmen have only small stocks on hand and must keep buying in order to stay in business. Government spending is still increasing. Television is big business in the cities where most of the nation's people live. Employment and payrolls are scheduled to increase during the next few months.

The business situation has its

dark spots too. Consumers have bought heavily on credit and may slow up on buying. Businessmen are cutting down on spending for new plants and equipment.

Normal Price Adjustments. Prices of industrial products are being adjusted to changes in conditions of supplies and demand. Prices for manufactured things like automobiles, television sets, and household appliances are being pared in one way or another. Markets for raw materials vary according to the product. Prices of some materials, such as sugar, petroleum, rayon,

and lead, are weak or declining.

Others—for example, industrial alcohol, steel scrap and lumber have increased. This mixture of price movements is normal in a period when the general level of prices is

stable. Others—for example, industrial alcohol, steel scrap and lumber have increased. This mixture of price movements is normal in a period when the general level of prices is
